

ATTENTION PATIENTS!

Do you want state tax auditors looking at the personal information in your medical record?

Governor Malloy -SB 1007- has proposed a new tax on “cosmetic” medical procedures. In order to be sure the right amount is being collected, state tax collectors would need to perform audits that will require the review of medical records. That means state tax collectors will be able to see personal medical information such as:

- Test results
- Chronic diseases
- Family medical history
- Lists of medications
- Major illnesses and surgeries
- Graphic photos

This is a violation of your patient privacy rights!

If you do not want the state to violate your privacy and believe that physician-patient confidentiality should be maintained, please contact the Governor and your state legislator by calling:

Governor Dannel Malloy.... 1-800-406-1527
Senate Democrats..... 1-800-842-1420
Senate Republicans 1-800-842-1421
House Democrats 1-800-842-8267
House Republicans..... 1-800-842-8270

Tell them you do not support legislation that will jeopardize your medical privacy and ask them to oppose the sales tax on “cosmetic” medical procedures.
